Summary

- I am a web developer having months of experience.
- I have been building web application and assisting my team.
- I have been doing my various pet web projects since mid of 2018.

Employment History

Tech Dock Pvt. Ltd.

- Here, as an intern, I have learnt to develop web app using **Django** & JavaScript. In the internship program, I have assisted as both backend and frontend to build 'E-Learning Education System'.

Education

Trinity International College

Bachelors of Science in Computer Science and Information Technology (BSc. CSIT)

Passed Year – 2021 A.D

Personal Projects

Movie Recommendation System- Built a web application using Django that has similar interface like movie websites & also added feature of recommending movies to the specific user. We did Machine Learning stuffs for item-item collaborative filtering using Pearson correlation algorithm.

Ecommerce using DRF- I have also developed ecommerce site using Django Rest Framework.

ReactJs Projects- Also attempted to create Ecommerce site using React & Redux for state management. And also done many small pet projects in React, thus I do also have better understanding of ReactJS.

Professional Skills

Frontend – HTML, CSS, Bootstrap, JavaScript, ReactJS (Hooks and Redux) & Gatsby

Backend – Python, RabbitMQ, Django, FastAPI, MySQL & PostgreSQL

O.S Platform & Devops – Windows, (Ubuntu) Linux, Docker, C-Panel Hosting
